IDENTIFIERS Adolescent Behavior; Volunteerism

ABSTRACT

This report details the 28th annual study to examine the attitudes of student leaders in U.S. high schools. Participating in the survey were 3,210 adolescents, primarily 16- and 17-year-olds, who had been featured in the 1997 edition of "Who's Who Among American High School Students." The report presents demographic information on the survey participants and provides tables of the survey results, including breakdowns by sex, race, type of school attended, and type of community. Findings are organized in the following sections: education; school violence; weapons; cheating in school; sexual behavior and attitudes; sexual harassment, assault, and date rape; cigarettes, alcohol, and drugs; future plans; the court system; honesty in American leaders; important influences; home life; happiness/depression; dieting, eating disorders, and self-image; cults; suicide; Internet usage; the nation's and their generation's greatest crisis; aspirations; prejudice; ethnic diversity, immigration, and Affirmative Action; abortion; volunteerism; quality of home life; and family meal time. A summary section highlights overall findings, which indicated that teens were more likely to base their choice of tobacco and alcohol products on a friend's recommendation rather than on advertisements, most acknowledge cheating on exams, a disturbing number had considered suicide, and many cited the decline of moral and social values as the greatest crisis confronting them and the nation.(KB)

Quality of Home Life	90
Family Meal Time	91

Introduction

This survey was conducted by *Who's Who Among American High School Students*, Lake Forest, Illinois, during the spring of 1997 for the purpose of determining the attitudes of student leaders in our nation's high schools. It is the largest independent sampling of this segment of the student population taken annually and this year marks its 28th anniversary. *Who's Who* believes that, in these rapidly changing times, it is important for the nation tc be aware of students' opinions and attitudes. Today's teens are an important segment of the present and future voting population. Hopefully, as the data from this 28th national survey is circulated and studied, significant trends will be uncovered.

We regard this survey as an educational experiment. We are in no way attempting to promote or negate any political, moral or social philosophy, organization, firm or individual. Because of our contact with student leaders, we believe we are in a position to gather important facts and meaningful information and, therefore, have a corporate responsibility to conduct this survey.

Although we of *Who's Who* feel that some of the questions and answers are of a private and controversial nature, we do not hesitate to take the responsibility for the project in order to achieve our objective of identifying and measuring students' attitudes. We apologize to anyone offended by any of the material presented herein.

Though by no means a reflection of today's "average" student because it is dealing with the opinions of student leaders and high achievers, we feel this survey does give insights into the thoughts of those leaders who set standards and behavior patterns for others to follow.

Of the 729,838 high achievers featured in the 1997 edition of *Who's Who Among American High School Students*, 7,500 students were sent the survey and 3,210 completed questionnaires were returned.

These 3,210 responses form the base of the survey. All students surveyed were members of the junior or senior class during the 1996-97 academic year. They were selected for recognition in *Who's Who* by their principals or guidance counselors, other faculty members, national youth organizations or the publishing company because of their high achievement in academics, activities, community service, athletics or their performance in national scholarship or award contests.

The students listed in the 31st Annual Edition of *Who's Who Among American High School Students, 1996-97* represent just over 5 percent of the 14,000,000 students who were in high school during the 1996-97 academic year. They represent approximately 18,000 of the 22,000 public, private and parochial high schools in the nation.

This survey was tabulated by computer. Questions were tabulated by total response. Breakdowns by sex, race, type of school attended and type of community are also included. On questions calling for write-in answers, results are shown of the most frequently mentioned answers.

Who's Who Among American High School Students is a recognition publication and service program produced by Educational Communications, Inc. (ECI). For 31 years, *Who's Who* has recognized high-achieving high school students nationwide and continues to serve as a reference for groups and institutions interested in student achievement.

All high schools are invited to nominate students for inclusion in the publication. To be eligible, students must have achieved a 'B' or better grade point average and demonstrated leadership in academic areas and extracurricular activities. The 729,838 high-achieving students listed in the 31st Annual Edition of *Who's Who Among American High School Students, 1996-97* represent approximately 18,000 of the 22,000 public, private and parochial high schools across the country.

There are no charges to students or sponsors contingent upon this recognition award.

Since 1978, the ECI Committee on Ethics, Standards & Practices, comprised of distinguished educators, has advised ECI on educational services and the content and policies of the directories.

Programs and services made available to recognized students:

- Scholarships
- College Referral Service
- Grants-In-Aid Program
- Teacher Nomination Program
- Participation in Annual Surveys

ECI's publications include:

- ***Who's Who Among American High School Students***®
- **Annual Survey of High Achievers**®
- **College-Bound Digest**®
- ***The National Dean's List***®
- ***Who's Who Among America's Teachers***®

FRIENDS, NOT ADS, SWAY TEEN CHOICE OF TOBACCO AND ALCOHOL

Survey Also Shows Tolerance of Cheating and Intolerance of Gays

WASHINGTON – As lawmakers around the nation continue to debate the impact of Joe Camel and televised alcohol advertisements on America's youth, a new survey shows that teenagers are more likely to base their choice of tobacco and alcohol products on a friend's recommendation than on an advertisement.

The 28th Annual Survey of High Achievers conducted by *Who's Who Among American High School Students* shows that 6% of the surveyed teens who drink or smoke choose their cigarettes and drinks on the basis of magazine, television, radio and billboard advertising. Rather, 21% say they choose their brands by word of mouth, 16% by ease of availability and 12% by price. Only 9% are brand-loyal, further evidence that advertising is not hitting the mark with this audience.

"Although we believe advertising is an issue that still needs to be reckoned with, lawmakers may want to pay more attention to the issue of price than ads to discourage teen smoking," said Paul Krouse, publisher of *Who's Who Among American High School Students.*

The results of the closely watched poll also suggest that America's top students are wrestling with critical moral and social issues. Most acknowledge cheating on exams, a disturbing number have considered suicide, and many say that the decline of social and moral values is the greatest crisis confronting them and the nation.

These teens also are four times more likely to be intolerant of homosexuals than they are of African-Americans. And despite an aggressive public education campaign about unprotected sex, most believe they are impervious to the dangers of contracting HIV/AIDS, including those who are sexually active.

But few say they are surfing the Internet for pornography. A high percentage of the 3,200 16- to 18-year-olds sampled in the survey say they are using the Internet for school research. Many say the Internet is more helpful than the library.

Among this year's findings:

- **BILLBOARDS DON'T COUNT: Six percent (6%) of teens who drink or smoke choose their cigarettes and drinks on the basis of advertising.**
- **CHEATING: Seventy-six percent (76%) of the nation's top teens have cheated on their schoolwork, most because it "didn't seem like a big deal."**

- **SUICIDE: Twenty-seven (27%) percent of these bright students have considered ending their own lives. One in five has known someone their age who has committed suicide.**
- **MORAL VALUES: Thirty-five percent (35%) of students believe that the decline of moral and social values is the biggest problem facing the nation today.**
- **BIAS AND BASHING: More than one-quarter (29%) of top teens say they are prejudiced against homosexuals. Seven percent (7%) of teens say they are intolerant of African-Americans.**
- **SEXUAL BEHAVIOR: One in five (20%) students have engaged in sexual intercourse. But 90% of them think they're invincible and can't contract HIV/AIDS.**
- **CYBER SURFING: Five percent (5%) of those students who use the Internet say they surf for pornography.**

Joe Camel Doesn't Count

Government leaders continue to blame alcohol and tobacco ads as the leading cause for underage smoking. But teens see through the smoke screen Madison Avenue is sending. Only six percent (6%) of these teens say they consider magazines, television and radio ads, or billboards when making alcohol and tobacco decisions.

How do they pick their poison? High achieving teens say they choose a brand of alcohol or tobacco by word of mouth (21%), ease of availability (16%), and price (12%). And even if they succumb to advertising, only 9% are brand-loyal to alcohol or tobacco products, making advertising an unlikely vehicle to sway students toward a brand or lifestyle.

This year's survey suggests that government leaders should look to sound family values where parents set the rules and lead by example. Of students (68%) who have never tried smoking, 86% have been told by their parents never to smoke. Comparatively, of teens (31%) who have smoked, 29% say that their parents never talked to them about smoking. Similarly, of students (28%) whose parents have forbidden them to drink, 69% have never tried drinking. And of students (49%) who drink, 46% say that their parents never talked to them about drinking.

"The fact that advertising does not program our kids' behavior leaves the field wide open for a parent who's willing to set a good example by not smoking, and who has the determination to educate a teen," said Krouse.

It Isn't Cheating Until You Get Caught

Today, cheating is so rampant in high school it is considered common practice. Roughly nine out of ten (88%) top students go to a school where cheating is widespread, and nearly two-thirds (65%) say that it would be easy to obtain test questions or answers at their school. Nearly two-thirds of those teens who cheated (60%) did so because it didn't seem like a big deal. And a greater number of parents (65%) agreed with them. (*Who's Who Special Report, January, 1997*). Even our brightest teens are cheating their way to the top. More than three-quarters of high achievers (76%) admit to having cheated on their schoolwork: 65% confess to copying someone else's homework and 38% admit to cheating on a test or quiz. Who could blame them when the consequences of cheating are almost non-existent? Almost all students (92%) who have cheated were not caught.

Screaming for Help – Teens and Suicide

Despite the confusion about drugs, alcohol, tobacco, sex, and morality experienced by teenagers, too many adults dismiss the notion that being a teenager is tough. Unfortunately, suicide has become the last fatal choice for far too many of them. More than one-quarter (27%) have considered committing suicide themselves, and 4% have actually attempted it. Almost half (43%) know someone their age who has tried to take his or her own life, and 20% know someone who killed him or herself.

Even though public debate continues over why teens commit suicide, *Who's Who* students say that general depression (66%), school pressures (50%) and arguments with parents (43%) are the leading factors for their contemplating suicide.

Prejudices: A Moving Target

This year marks the 40th anniversary of the desegregation effort in Central High School in Arkansas and the beginning of the civil rights movement. While few high achieving teens think race relations (3%) is the biggest problem facing our nation today, students attribute alternative lifestyles to a decline in social and moral values. Today more teens are intolerant of homosexuals (29%) than prejudiced against African-Americans (7%). The message about racial prejudice seems to have gotten through to most of these teens. However, the top teens who are most concerned about a decline in social and moral values are also more biased (37%) against homosexuals.

Sex, Secrets and Lies

Ironically, with all the X-rated movies and television infiltrating their lives, 41% of these smartest teens have never discussed birth control with their parents. Perhaps this is because most parents (91%) think their teens have never engaged in sexual intercourse (*Who's Who Special Report, January, 1997*).

But this does not mean that kids are ignoring sex. In fact, many teens engage in sex even before they are able to drive a car. Of teens who say they have had sex, 85% first experienced it at age 16 or under, and 14% have had sex at age 17.

"Clearly sexual promiscuity and high risk behavior can be reduced significantly if parents talk to their children about sex," noted Krouse. Honest communication is a powerful tool. After students (27%) had discussions with their parents in which they were forbidden to have sex, 88% say they never engaged in sexual intercourse. Comparatively, of top teens (5%) who say that their parents don't care if they do it or not, 52% have engaged in sex.

And while these teens get "A's" in English, they fail the HIV/AIDS test. They frequently have risky sex without fear of the consequences. Only 50% of these sexually active teens use a condom regularly. Their greatest fear from having sex is pregnancy (42%). By contrast, only 17% of top teens say that HIV/AIDS worries them most about engaging in sex.

-MORE-

Wired For the Right Reasons

In spite of all of the recent debates about kids using the Internet for the wrong reasons, today's high achieving teens offer some encouraging news to all of the cyber nay-sayers. Sixty-five percent (65%) of top students say they use the Internet for research on school papers while exactly half (50%) believe it is better than the traditional library for this purpose.

And while teachers and parents are suspicious about what kids may find on the Internet, only 36% of students say they use the Internet to "surf" randomly. And only 5% of students say they go on-line to seek out pornography.

Access to the Internet is also becoming a vital part of today's schools, offering teens an opportunity to explore the information super-highway. Seventy-nine percent (79%) of students have access to the Internet and 56% access the Internet at school.

Just Say No! Again and Again and Again

Despite years of public service ads, parents and community leaders are still off the mark. While we witnessed a steady decline in drug and alcohol use through the '80s and early '90s (*Who's Who 25 Year Trend Report, June 1995*), we are now seeing a slight reversal in this trend. Seventy-eight percent (78%) of America's brightest students say it is easy or not very difficult for them to obtain alcohol. The most popular place to "go drinking" is at a friend's house when parents are away (56%). And when the party is over, nearly one-quarter (24%) of these bright teens say they've been passengers in a car whose driver had been drinking. In fact, one in ten (10%) admit to having driven after drinking.

Today's high achievers are using drugs too: The number of students who have tried marijuana has more than doubled since 1993 (up from 7% to 17%), while 32% of these teens say they have tried smoking cigarettes. And of students (15%) whose parents have told them they've used drugs in high school and college, (35%) of these students say they have tried marijuana. Conversely, of teens (83%) whose parents have told them that they have never used drugs, 90% of these top teens say they have never experimented with drugs.

"Clearly, parents are the first line of defense in guarding teens against the most alluring – and life-threatening – substances," said Krouse. "Parents need to know that their words and actions can serve as a shield for their teenagers."

The Frightening Schools of the Nineties

In a world of metal detectors and law enforcement officers in school hallways, students are faced with violence, drugs, and alcohol in their classrooms. Eleven percent (11%) of *Who's Who* students have felt unsafe at school, while nearly one in five students (18%) say it is easy or not very difficult to obtain a weapon at their school.

Violence isn't the only danger lurking in schools. Nineteen percent (19%) of high achievers believe drugs and alcohol are the most serious problem in their high school. More than one-half of the *Who's Who* students (54%) say it is easy or not very difficult to obtain drugs at their school.

Despite all the troubles our nation's schools face, there is a silver lining. Eighty- three percent (83%) of all teens surveyed gave their school an "A" or "B" average for the quality of their education. And 91% of these brightest teens find their school to be "somewhat" or "very" challenging.

There's No Place Like Home – And a Good Meal

Ultimately, security and knowledge of how to avoid life's sinkholes comes from open communication with families. The *Who's Who* survey shows that 66% of top students say life at home is happy and close most of the time. And there seem to be a few simple ways to achieve this contentment. Of the students (66%) who feel that life at home is happy most of the time, 68% eat dinner with their families on a regular basis. Their reinforcement really counts. Of the students (69%) who say that their parents see them as beautiful/ handsome, 82% say they are happy a majority of the time.

"Some of the hardest things for a parent to do – find beauty in a child who might be sporting purple hair and an eyebrow ring, wedge a family dinner into an impossible activity schedule, speak openly about a difficult topic – are precisely the things that make the greatest positive differences in children's lives," said Krouse. "If you doubt it, do what we have done for 28 years. Just ask your kids."

The *Who's Who* survey, conducted among 3,210 high achieving 16- to 18 year old students, is the nation's largest independent sample of outstanding high school students. It provides a penetrating look into the minds of those students who are traditionally expected to be among this country's future leaders in business, government, and academia. All students in the survey have "A" or "B" averages, and 98% plan to attend college after high school graduation. The survey asked about school life, sexual activity, social issues, drug and alcohol use, and teen suicide.

For more information about the *28th Annual Survey* or *Who's Who Among American High School Students*, call Doug Baj at 202/667-0901 or Paul Krouse at 847/295-6650.

WHO'S WHO TOP TIPS FOR PARENTS

Drawing from *Who's Who* research and in response to studies conducted by the U.S. Department of Education and several education groups, *Who's Who Among American High School Students* has developed the following checklist for parents to use to become a stronger influence in their teens' lives:

1. **Talk with your child:** If parents do not supply their kids with information about sex, drugs, alcohol, etc., children can be easily swayed by peers with misinformation. While some parents may find such conversations embarrassing, not holding them could have tragic consequences.

2. **Set a good example for your child:** Parents who smoke, drink, use drugs or watch television excessively, may find their child rejecting their warnings against these behaviors as hypocritical. But if parents demonstrate that reading and education are important to them, it will become important for their children.

3. **Maintain an adult presence in your child's life:** Parents should not allow peer pressure to set their child's values but instead have regularly scheduled family time.

4. **Communicate tough, but fair and consistent rules:** Explain to your child the purpose behind the rule and let him or her know when the rule is no longer necessary. Ensure that your child earns privileges instead of being automatically given them.

5. **Work with your child's teachers:** Make sure your child knows that any inappropriate behavior at school will have consequences at home because of the importance of acquiring a good education.

FACT SHEET
TWENTY-EIGHTH ANNUAL SURVEY OF HIGH ACHIEVERS

- **The 28th Annual Survey of High Achievers** is a representative sampling of the opinions, attitudes, feelings, and concerns of 729,838 outstanding high school students featured in the 31st annual edition of *Who's Who Among American High School Students.*

- Nearly 7,500 students were demographically selected to participate in the survey from the students featured in the 1997 edition of *Who's Who Among American High School Students.* Nationally, 3,210 students completed and returned the questionnaire.

- **The 28th Annual Survey of High Achievers** is the largest independent sample of outstanding high school students. It provides a penetrating look into the minds of those students who are traditionally expected to be among this country'ss future leaders in business, government, and academia.

- The survey questions are part of a database spanning more than twenty-seven years. They are developed as a result of the input of students, distinguished educators, and counselors from across the country. The questions present a broad set of thought-provoking topics, including education, careers, sex, violence, drugs, and social issues.

- The results of the survey are tabulated by computer and are broken down by sex, race, type of school, and type of community.

- Other surveys are conducted throughout each year as a public service on timely issues of national concern, such as HIV/AIDS, "What Parents of Top Teens Don't Know About Their Kids", and "Unwilling, Unable and Unprepared: Top Teachers Rate Parents, Teens and Schools".

Paul Krouse, President and Publisher

Paul Krouse has been involved with teenagers and the issues that concern them for more than thirty years. As publisher of *Who's Who Among American High School Students*, *Who's Who Among America's Teachers* and *The National Dean's List*, the three largest publications in the nation honoring exceptional high school students, college students and teachers, respectively, he has become a national expert on teen behavior and attitudes.

Krouse has conducted twenty-eight annual surveys of *Who's Who* students–the nation's largest and most comprehensive independent sampling of high-achieving high school students' opinions–asking students their views on issues such as education, sex, AIDS, drug and alcohol use and suicide. From that opinion research he has learned what teens think, what they want and what they need. He has used this information to provide helpful advice to parents identifying the problems facing teens and offering solutions through his numerous interviews and commentaries.

Joe Krouse, Associate Publisher

A graduate of the University of Michigan, Joe has been involved with *Who's Who* for more than nine years. In addition, he has experience in financial services, as well as the television industry.

Over the years, Paul and Joe have appeared on major radio programs including National Public Radio's "Morning Edition" and the "Michael Jackson Show." Their national television appearances include CBS' "This Morning," ABC's "World News Now" and FOX News' "FOX on Family." Results from the *Who's Who* surveys have appeared in almost every major paper across the nation including: USA Today, The Washington Post, The Los Angeles Times, The New York Times, The Detroit News and The Boston Globe. The survey results have also been the subject of national television programs including NBC's "Today Show," ABC's "American Agenda" and CNN's "Headline News." In addition, the surveys are repeatedly reported on many Internet news services including Yahoo, America Online and The Microsoft Network.

WHO'S WHO AMONG AMERICAN HIGH SCHOOL STUDENTS®

Twenty-Eighth Annual Survey of High Achievers' ®

Views on Education, Drugs, Social and Sexual Issues

SAMPLE SIZE: 3,210

PROFILE

Female	72%
Male	28%
16 years old	31%
17 years old	67%
18 years old	2%
Caucasian	78%
African-American	6%
Asian-American	6%
Hispanic	5%
Other	5%
Protestant	30%
Catholic	32%
Jewish	2%
Other	27%
None	8%
Attend public school	77%
Private school	14%
Parochial school	8%
Going to college or university after graduation	98%

Estimated Family Income:

Under $20,000	8%
$20,000-$29,000	10%
$30,000-$44,999	20%
$45,000-$70,000	29%
More than $70,000	24%
Parents are married to each other	79%
Parents are divorced	16%
Other	5%
Both parents attended college	52%
One parent attended college	25%
Neither parent attended college	22%

Live in:

Midwest	28%
South	27%
East/Northeast	22%
Pacific/West	16%
Southwest	7%
Rural/small town	48%
Suburban	41%
Urban	9%

ALCOHOL/TOBACCO ADVERTISING

THOSE STUDENTS WHO DRINK OR SMOKE AND ARE LOYAL TO SPECIFIC BRANDS OF ALCOHOL OR TOBACCO: 9%

WHEN CHOOSING A BRAND OF ALCOHOL OR TOBACCO, STUDENTS SAY THEY ARE INFLUENCED BY:

Friends/word of mouth	21%
Ease of availability	16%
Price	12%
Parent's brand	4%
Magazines	2%
Television ads	2%
Radio ads	1%
Billboards	1%
Other	10%

CHEATING

STUDENTS WHO SAY CHEATING IS COMMON AT THEIR SCHOOL:

All students	88%
Public school students	92%
Private school students	72%

STUDENTS WHO HAVE CHEATED:	76%
Copied someone else's homework	65%
Cheated on a quiz or test	38%
Used Cliff or Monarch Notes to avoid reading a book	29%
Plagiarized part of an essay	15%
None of the above	24%

OF STUDENTS WHO HAVE CHEATED, THOSE WHO SAY:

I was not caught	92%
I was caught and punished	5%
I was caught and not punished	4%

STUDENTS WHO NAME THE FOLLOWING AS THEIR REASONS FOR CHEATING:

Didn't seem like a big deal	60%
Competition for good grades	39%
Didn't think I'd get caught	15%
To get into a good college	10%

STUDENTS WHO SAY IT WOULD BE EASY OR NOT VERY DIFFICULT TO OBTAIN TEST QUESTIONS/ANSWERS AT SCHOOL: 65%

SUICIDE AND DEPRESSION

STUDENTS WHO KNOW SOMEONE THEIR OWN AGE WHO HAS COMMITTED SUICIDE: 20%

STUDENTS WHO KNOW SOMEONE THEIR OWN AGE WHO HAS TRIED COMMITTING SUICIDE: 43%

STUDENTS WHO HAVE CONSIDERED COMMITTING SUICIDE:

All students	27%
Male students	21%
Female students	29%

STUDENTS WHO HAVE TRIED COMMITTING SUICIDE:

All students	4%
Male students	2%
Female students	5%

REASONS STUDENTS GIVE FOR CONSIDERING SUICIDE:

General depression	66%
School pressures	50%
Fight with parents	43%
Divorce/family problems	21%
Break-up of a relationship	20%
Problems with drugs/alcohol	3%
A friend committed suicide	2%

IF STUDENTS CONSIDERED SUICIDE, THE FOLLOWING HELPED HIM/HER RECONSIDER:

Worked it through themselves/started to feel better	71%
Talked to a friend	19%
Talked to a parent	3%
Talked to a hot-line/professional counselor	3%

STUDENTS WHO HAVE BEEN DIAGNOSED WITH DEPRESSION: 5%

STUDENTS WHO SAY THEY OFTEN OR ALWAYS FEEL DEPRESSED:

All students	13%
Male students	10%
Female students	13%

STUDENTS WHO SAY THE FOLLOWING HAS THE MOST IMPACT ON THEIR MOOD:

Friends	31%
Parents	29%
Grades	23%
Girlfriend/boyfriend	18%
The worlds problems	3%
Prescription drugs	1%
Caffeine	1%
Alcohol	less than 1%
Illegal drugs	less than 1%
Other	13%

DIVERSITY

STUDENTS WHO ARE PREJUDICED AGAINST:

Homosexuals	29%
African-Americans	7%
Hispanics	7%
Asian-Americans	2%
Jews	1%
Caucasians	1%

STUDENTS WHO SAY THAT MOST OF THE PEOPLE THEY KNOW ARE PREJUDICED AGAINST:

Homosexuals	36%
African-Americans	8%
Hispanics	6%
Asian-Americans	3%
Jews	2%
Caucasians	1%

Continued on the next page

NOTE: Where percentages do not add up to 100%, the difference indicates "No Answer." Percentages rounded to the nearest whole number. Totals over 100% indicate multiple responses.

OF STUDENTS WHO SAY THAT THE DECLINE OF MORAL AND SOCIAL VALUES IS THE GREATEST CRISIS FACING OUR NATION TODAY, THOSE WHO ARE BIASED AGAINST HOMOSEXUALS: 37%

STUDENTS WHO SAY THE FOLLOWING BEST DESCRIBES THEIR GROUP OF FRIENDS:

Most of my friends have the same racial/ethnic background as I do	59%
Some of my friends have the same racial/ethnic background as I do	22%
All of my friends have the same racial/ethnic background as I do	16%
None of my friends have the same racial/ethnic background as I do	3%

STUDENTS WHO THINK THE FOLLOWING ABOUT THE POTENTIAL RESULTS OF AFFIRMATIVE ACTION POLICIES IN THE U.S.:

It will be harder to get the job I want	45%
It will be harder to get into the college I want	41%
Schools are not as good	18%
Society is more interesting	16%
Society is more dangerous	15%
Schools are better	11%
There are too many languages spoken in the U.S.	9%

STUDENTS WHO THINK THE FOLLOWING ABOUT THE POTENTIAL RESULTS OF IMMIGRATION POLICIES IN THE U.S.:

It will be harder to get the job I want	40%
Society is more interesting	37%
Society is more dangerous	32%
There are too many languages spoken in the U.S.	30%
It will be harder to get into the college I want	28%
Schools are not as good	21%
Schools are better	5%

SEXUAL BEHAVIOR

STUDENTS WHO SAY THEY HAVE ENGAGED IN SEXUAL INTERCOURSE:

All students	**20%**
Public school students	22%
Private school students	13%

STUDENTS WHO HAVE NEVER DISCUSSED BIRTH CONTROL WITH THEIR PARENTS 41%

STUDENTS WHO HAVE DISCUSSED SEX WITH THEIR PARENTS 81%

OF STUDENTS WHO HAVE DISCUSSED SEX WITH THEIR PARENTS AND HAVE BEEN FORBIDDEN TO HAVE SEX, THOSE WHO SAY THEY HAVE NEVER ENGAGED IN SEXUAL INTERCOURSE: .88%

MAJOR REASONS STUDENTS GIVE FOR ABSTAINING FROM SEXUAL INTERCOURSE:

Want to wait for marriage	48%
Haven't met the right person yet	16%
Not ready	15%
Religion discourages it	10%
Fear of disease/pregnancy	9%

STUDENTS WHO KNOW SOMEONE AT SCHOOL WHO HAS HAD AN ABORTION:

All students	47%
Male students	29%
Female students	54%

AMONG STUDENTS WHO HAVE HAD SEXUAL INTERCOURSE:

First experience was at age:

14 or under	18%
15	27%
16	40%
17	14%

Number of sexual partners students have had:

One	57%
Two	21%
Three	8%
Four or more	11%

Reason students first engaged in sexual intercourse:

In love with partner	52%
Curiosity	20%
Swept away with passion	12%
Pressured by my partner	10%
Felt peer pressure	4%
Under the influence of drugs/alcohol	4%
Wanted to lose virginity	3%

Students who say the following worries them most about having sexual intercourse:

Pregnancy	42%
Sexually transmitted diseases	21%
Losing virginity	21%
AIDS	17%
Hurting/angering parents	8%
Reputation	4%
Nothing	3%

Students who think their personal risk of contracting AIDS is:

High	4%
Moderate	7%
Low	37%
None	49%

Of students who have had more than five sex partners, those who believe their risk of contracting HIV/AIDS is low: 55%

Students who say they always use the following contraceptive device:

Condom	50%
Birth control pill	21%
Other	3%

Reasons why students have not used condoms:

Don't like the way condoms feel	17%
Don't have easy access to them	16%
Use a different contraceptive	15%
Ruins the mood/spoils the moment	12%
Partner refused to wear one	5%
Embarrassed to purchase them	3%
Can't afford them	2%

Students who think their or their partner's risk of pregnancy is:

High	11%
Moderate	26%
Low	47%
None	14%

Students who say they have been pregnant/ gotten someone pregnant:

All students	5%
African-Americans	11%
Hispanics	11%

SEXUAL VIOLENCE AND DATE RAPE

STUDENTS WHO KNOW SOMEONE WHO HAS BEEN A VICTIM OF DATE RAPE: 30%

FEMALE STUDENTS WHO WERE FORCED TO HAVE SEXUAL INTERCOURSE BY:

Friend or acquaintance	4%
Date	3%
Relative	2%
Stranger	1%
Other	2%

STUDENTS WHO HAVE BEEN A VICTIM OF SEXUAL HARASSMENT:

All students	28%
Male	8%
Female	35%

STUDENTS WHO WERE SEXUALLY HARASSED BY:

Friend or acquaintance	65%
Stranger	39%
Date	11%
Teacher	8%
Relative	7%
Friend of family	7%
Employer	6%

THE INTERNET

STUDENTS WHO HAVE ACCESS TO THE INTERNET: 79%

STUDENTS WHO SAY THEY HAVE ACCESS TO THE INTERNET:

At school	56%
At home	53%
At a friend's house	32%
At the public library	23%
Public school students	59%
Private school students	43%

STUDENTS WHO USE THE INTERNET TO:

Research for school papers	65%
Find information about news, hobbies, and leisure topics	45%
"Surf" randomly	36%
Use chat rooms	31%
Find pornography	**5%**
Other	11%

STUDENTS WHO THINK THE BEST TOOL FOR RESEARCH IS:

The Internet	50%
The traditional library	46%
Both less than	1%

ALCOHOL AND DRUGS

STUDENTS WHO HAVE NEVER TRIED:

Cocaine	98%
Crack	98%
Heroin	98%
Steroids	98%
LSD/hallucinogenic drugs	96%
Speed/amphetamines	96%
Inhalants	95%
Chewing tobacco	91%
Diet pills	88%
Marijuana	83%
Cigarettes	68%

STUDENTS WHO SAY IT IS EASY OR NOT VERY DIFFICULT FOR THEM AND THEIR FRIENDS TO OBTAIN ALCOHOL: 78%

FREQUENCY WITH WHICH STUDENTS DRINK ALCOHOLIC BEVERAGES:

Never	50%
Almost never	32%
Monthly	9%
On weekends	8%

STUDENTS WHO HAVE DISCUSSED DRINKING WITH THEIR PARENTS: 88%

OF STUDENTS WHO HAVE DISCUSSED DRINKING WITH THEIR PARENTS AND HAVE BEEN FORBIDDEN TO DRINK ALCOHOLIC BEVERAGES, THOSE WHO HAVE NEVER TRIED DRINKING: 69%

OF STUDENTS WHO DRINK, THE PLACES THEY GO TO DO SO:

Friends' houses when the parents are away	56%
Friends' houses with their parents' knowledge	24%
Parents' house when the parents are away	24%
Parents' house with the parents' knowledge	27%
Public places (parks, beaches, etc.)	27%
Hotels/motels	12%
Restaurants/bars	10%
School	2%

STUDENTS WHO SAY ALCOHOL IS VERY COMMON AT PARTIES: 77%

STUDENTS WHO HAVE DRIVEN A CAR AFTER DRINKING: ..10%

STUDENTS WHO HAVE BEEN A PASSENGER IN A CAR WHOSE DRIVER HAD BEEN DRINKING: 24%

STUDENTS WHO SAY THAT THERE IS A LOT OF ALCOHOL USE AMONG STUDENTS FROM THEIR SCHOOL:

All students	81%
Public school students	87%
Private school students	56%

STUDENTS WHO THINK SOME OF THEIR FRIENDS HAVE A PROBLEM WITH ALCOHOL: 41%

STUDENTS WHO WOULD CHARACTERIZE THEIR PARENTS' DRINKING HABITS AS:

Abstainers	50%
Moderate drinkers	45%
Heavy drinkers	3%
